## Objective

Having 4.2 year experience in Software Testing that includes Manual Testing and Automation Testing using Selenium Webdriver which comprises of Sanity, Functional testing, Nonfunctional Testing, Retesting, Regression Testing, UI Testing, Globalization Testing, API Web Service Testing, Database Testing using SQL, Browser Compatibility Testing. Having good experience and knowledge in Investment Banking Domain & knowledge of Telecom CRM and Billing.

## Experience Summary

- **4.2 Years** of overall experience in both **Automation and manual testing** which includes Database testing, API testing using POSTMAN and **Automation using Selenium WebDriver with JAVA.**
- Good domain working experience at **Investment Banking and Telecom based application .**
- Good Knowledge in various **Frameworks** like **Data Driven Framework.**
- Advanced level hands on experience with **Java programming language** and **Eclipse IDE environment, IntelliJ Idea.**
- Experienced in all phases of Software Testing Life cycle (**STLC**) with good experience in the **Sanity Testing, Functional Testing, Regression Testing, Retesting, Database Testing, UI Testing, Globalization Testing.**
- Extensive knowledge in (**SDLC**) **software development Lifecycle**, Testing concepts and Testing Methodologies.
- Analyse the requirement specifications documents **Test Plans, Test Strategy, Test Scope, defining Test Cases and Automation of Test Scripts.**
- Extensive experience in developing **Test Cases, Test Matrix, Requirements Traceability, Test Reports and documentation of Manual and Automated Tests.**
- Expertise in Bug Tracking, Bug Verification and Reporting.
- Implemented **Agile Methodology** process in the Project.
- Participate in **scrum meeting** to discuss about project progress report every day.
- Proficient Manual Testing – with defect management tool **JIRA (Xray) ,HP-ALM 12.5**
- Experience in executing **SQL Query** to perform Database testing with help oracle 11g.
- Good Knowledge of **Web service and API Testing** using **SOAPUI and POSTMAN.**
- Knowledge about **Rest Assured.**
- Knowledge about **UNIX Commands** to validate server data.
- Experienced in **TestNG & Annotations, designing POM(Page Object Model) classes**, familiar with use of **MAVEN, GitHub, Bitbucket.**
- Having Knowledge of **implicit explicit waits in selenium Webdriver.**
- Familiar with use of **TestNG Listeners.**
- Executed test scripts on **IE, Firefox and Google Chrome.**
- Performing data driven testing
- Good understanding of **Handling Popups, List Box & Actions, Dynamic Xpath, iframe and Dropdown boxes.**
- Experience in converting the test cases into the test scripts by using **JAVA** for theAutomation framework.
- Good Experience in **JAVA, OOPS Concept, Collections, Exceptions Handling and String class**
- Focused & goal driven with strong work ethics and commitment to offer quality work.

## Professional Work Experience

- Working as a **Software Quality Analyst** with **Vodafone, Pune** from August 2022 to June 2023.
- Worked as a **Software Test Engineer** as **Tietoevry, Pune** from May 2019 to August 2022.

## Educational Qualification

- B.E. from NMU University in 2017 with First-class.

## Technical Expertise

- Automation: **Selenium WebDriver with JAVA.**
- Manual Testing: **Test case design, Test Execution, Bug Tracking and Reporting**
- Testing Tool: **Selenium Webdriver, Eclipse IDE, IntelliJ Idea.**
- Framework: **Selenium Framework, TestNG**
- Project Management Software: **Maven**
- Test Management Tool: **JIRA (Xray)**
- Database: **Oracle 11g**
- Operating systems: **Windows**
- Language: **Core Java, UNIX, SQL and Java.**
- Web Services: **SOAPUI**
- API testing: **Postman tool**

## Project Experience

### ➤ Project 1 : Telecom Domain

|              |                            |
|--------------|----------------------------|
| Project Name | Vodafone Kabel Deutschland |
|--------------|----------------------------|

#### Project Description :

Vodafone Kabel Deutschland is a leading telecommunications provider in Germany, offering a wide range of services to residential and business customers. The company operates an extensive cable network infrastructure, delivering high-quality cable television, fast broadband internet, and reliable telephone services. Provide exceptional customer service to a diverse customer base, resolving inquiries and technical issues promptly and effectively. Promote and sell Vodafone Kabel Deutschland's products and services, ensuring customer satisfaction and maximizing revenue.

### ➤ Project 2 : Telecom Domain

|              |                        |
|--------------|------------------------|
| Project Name | Telecom CRM & Billing. |
|--------------|------------------------|

#### Project Description:

Billing System Di alexia Communications Telecom is service providers in the telecommunication industry to bring new, revenue-generating services to market faster, easier and at a lower cost. The service is open, scalable and flexible reference architecture. Customers can log on, pay bills, shop for plans and phones, manage their accounts and download media like ringers, games and applications. Customer can log on either phones (wireless) or from a computer (wired).

#### Roles and Responsibilities:

- Assisting in the early planning of new features and products, identifying potential improvements and issues before development begins.
- Planning and executing testing of new features and products, and ensuring that all explicit and implicit requirements are met.
- Performing Functional Testing, Regression Testing.
- Identify the test cases for **Automation.**
- Responsible for creating **POM** and **Test class** for the Automation Framework.

- Validation of Expected output Vs Actual Output in respective logs files using UNIX.
- Validation of Expected output Vs Actual output in respective database tables using SQL.
- Identification of defects, registering them in QC and reporting them to the lead.
- Clearly and concisely documenting and communicating issues and defects found during testing, and determining appropriate escalation.
- Working with developers during sprint planning sessions to coordinate testing and work estimations.
- Working with developers and product managers to come to good solutions to defects found.
- Requirement Analysis: Analyzing the requirements and communicating with BA team for better understanding of the requirements.
- Responsible for testing deliverables, prioritizes and monitors activities to meet such dates for individual assigned features.
- Identified End to End Test Scenarios, Test Cases and Test Data.
- Writing effective and optimized Test Cases for Black Box Testing.
- Execution of test cases.

### ➤ **Project 3 : Investment Banking**

|              |      |
|--------------|------|
| Project Name | LMFX |
|--------------|------|

#### **Project Description:**

LMFX is a stock and forex broker offering MT4 trading with high leverage rates. This review explores LMFX's forex pairs, deposit and withdrawal options, regulation status, bonuses and accounts. The broker has a limited range of additional services and tools for clients. There are no educational resources offered to explain key terms and coach new clients through the basics of trading, something that many other providers offer. What LMFX does provide is an economic calendar and seven different trading calculators, including Fibonacci, pivot points and risk calculators. The broker also offers a VPS service and daily market analysis

#### **Roles and Responsibilities:**

- Requirement Analysis: Understanding the requirements and communicating with BA team for better understanding of the requirements
- Identify the test cases for Automation.
- Responsible for creating POM and Test class for the Automation Framework.
- Designed and executed test cases according to functional specifications.
- Execution of Test Cases.
- Test Execution of system test suite.
- Analyzing the requirements & preparing test documentation for the same.
- Involved in the requirement study, design and development of the test cases.
- Review of Test Cases/Test Document.
- Performed Functionality Testing, Retesting and Regression Testing.

#### **Personal details**

- Date of Birth: 22 March 1995
- Marital Status: Unmarried
- Permanent Address: Mumbai, Maharashtra.
- Language Known: English, Marathi and Hindi

#### **Declaration**

I do hereby declare that all the information given above is true to the best of my knowledge and belief.

Place: Pune, Maharashtra.

Date: 27/07/2023
